Step 1: Account

In the 'Account' section, you have the option to view and edit your company information (address, phone number, bank details, etc.).

Under the 'Settings' tab, you can also choose to disable the public review button on your profile page. Additionally, when integrating with external portals, you can decide whether or not to display the total number of reviews. You also have the option to select the language between English or German

The screenshot shows a 'Settings' page with three main sections. The first section is titled 'Show link to review form on profile page?' and contains a blue instruction bar: 'If you do not want to display a link to the evaluation form on your profile page, select "no"'. Below this are two radio buttons: 'Yes' (unselected) and 'No' (selected). The second section is titled 'All-in-One Seal: Total number of ratings visible in the seal?' and contains a similar blue instruction bar: 'If you do not want to display the total number of ratings in the rating seal when using the All-in-One function, select "no"'. Below this are two radio buttons: 'Yes' (unselected) and 'No' (selected). The third section is titled 'Language' and features a dropdown menu currently set to 'American English'. At the bottom center of the page is a blue 'Save' button.

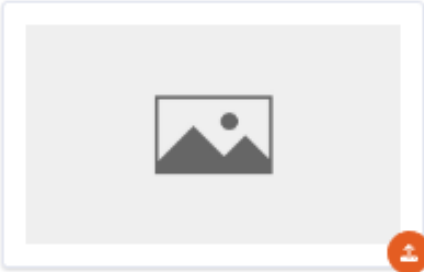

Step 1: Account

Furthermore, in the 'Account' section, you can also customize your 'public profile' by uploading a company photo or logo and adding a description of your business.

In this section, you can also 'Change Password'.

Step 4: Place your seal

In the 'Widgets' section, under the 'Seal' tab, you have the option to place your seal.

There are basically two ways to embed our seal in an **HTML template**:

The first option is ideal for 'IT novices' and easy to handle: You can choose between placing the seal on the right or at the bottom of the screen. To do this, select 'Seal Configuration' and go to the selection page.

These seal placements are responsive and adapt to different screen sizes. With the 'right screen edge' widget, you also have the option to specify the breakpoint in pixel width. Once reached, the seal will move from the right to the top of the page.

Seal Configuration

Please decide first for one of our widgets for installation in your homepage, so the placement of the seal.

Widget: right_normal_without_example

Widget: "Right"

Use this placement if you want to have your AUSGEZEICHNET.org seal fixed to the right edge.

You may specify the screen size where your widget should move to top so that it doesn't overlap you page content

Step 4: Place your seal

After selecting the desired position and size, click the 'Save' button, copy the HTML code, and paste it into your central HTML template between `<body>` and `</body>`. However, the integration may vary depending on the shopping system.

The second option is recommended for IT professionals. You can also position the seal exactly as desired by selecting one of the 'embedded' options. Copy the HTML code and paste it into the desired location in the HTML template where you want to place the seal.

Step 4: Place your seal

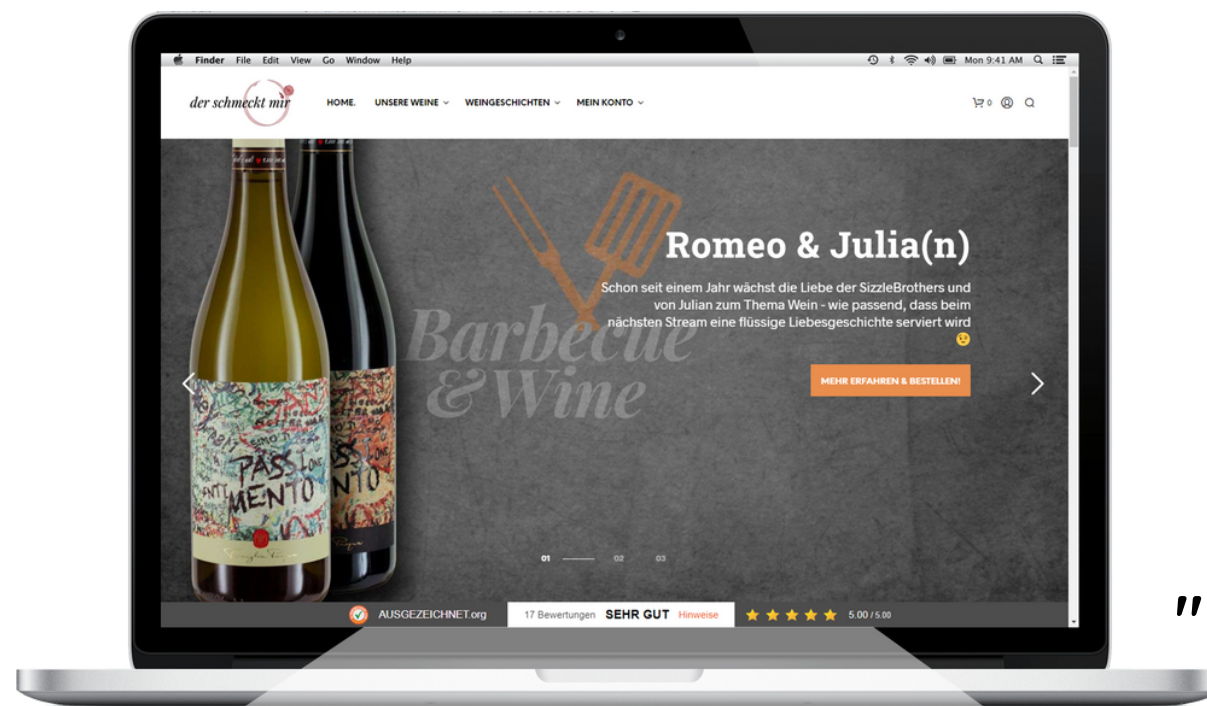

There are several ways to place your seal

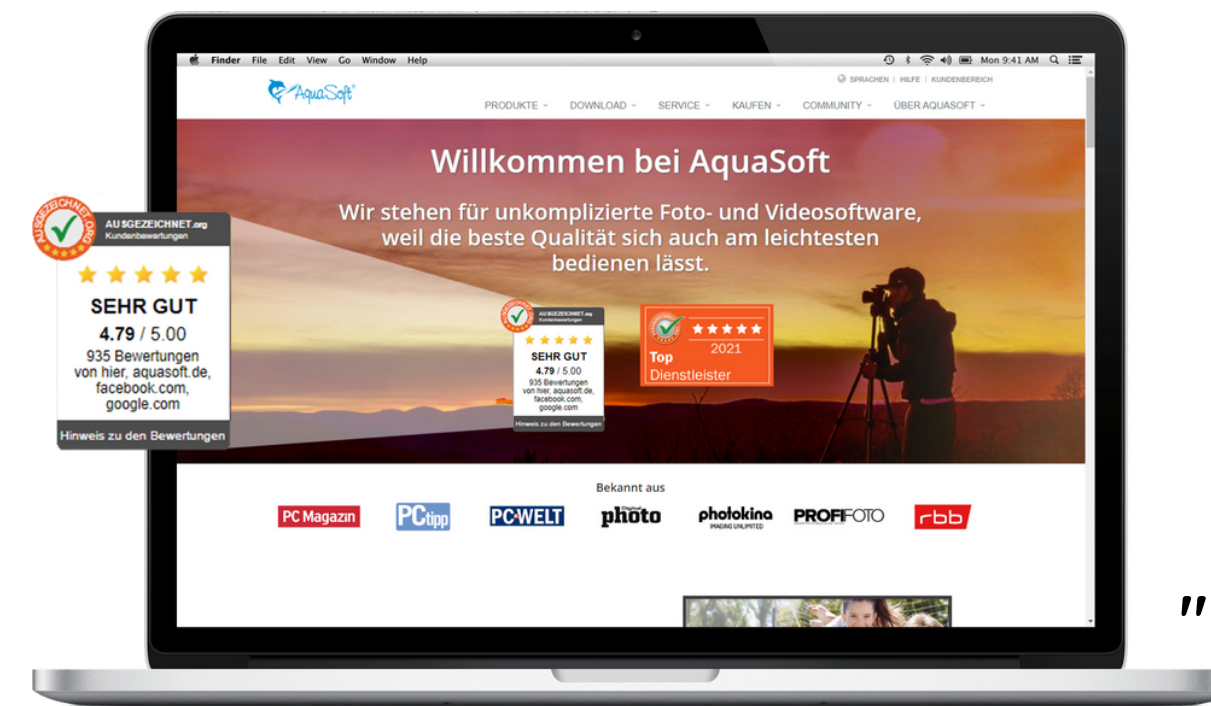

"Fixed right" or
"Right sidebar"

"Left fixed with

"Footer"

"Embedded"

Step 4: Place your seal

In the "Widgets" section, under the "Dynamic Seal" tab, you have the option to dynamically display the review seal on your website. You can choose between two display types - square or rounded:

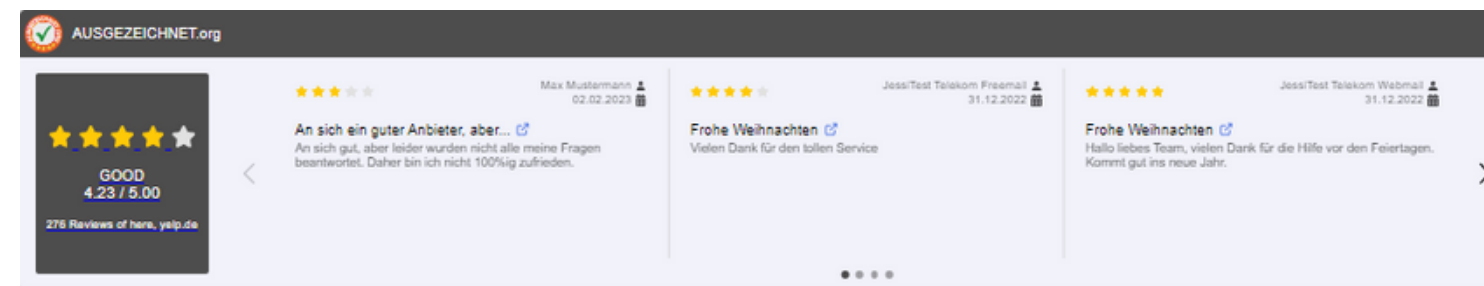

The screenshot displays the 'Place your Dynamic Seal' interface. A 'Dynamic Seal Configuration' dialog box is open, showing 'Basic configuration' and 'Professional configuration' sections. The 'Type' is set to 'Rounded'. A 'Configuration' button is highlighted in the top right. A preview of the seal is shown at the bottom left. A detailed view of the seal for 'Mustershop' is shown on the right, with a red arrow pointing to the seal.

By clicking on the seal, the viewer will open a detailed page of your profile.

Step 5: Review Slider

With the Review Slider, you can showcase your 10 latest reviews for your business on your website in a dynamic scroll. This allows your customers and potential customers to easily see and read reviews from others who have used your products or services.

After selecting the "Review Slider implementation" function in the "Widgets" section, you can establish the Review Slider on your website by following these steps:

TIP:

If you want to set the size of the Review Slider yourself to match it with the overall design of your website, we recommend that you insert the HTML code into a box in your template.

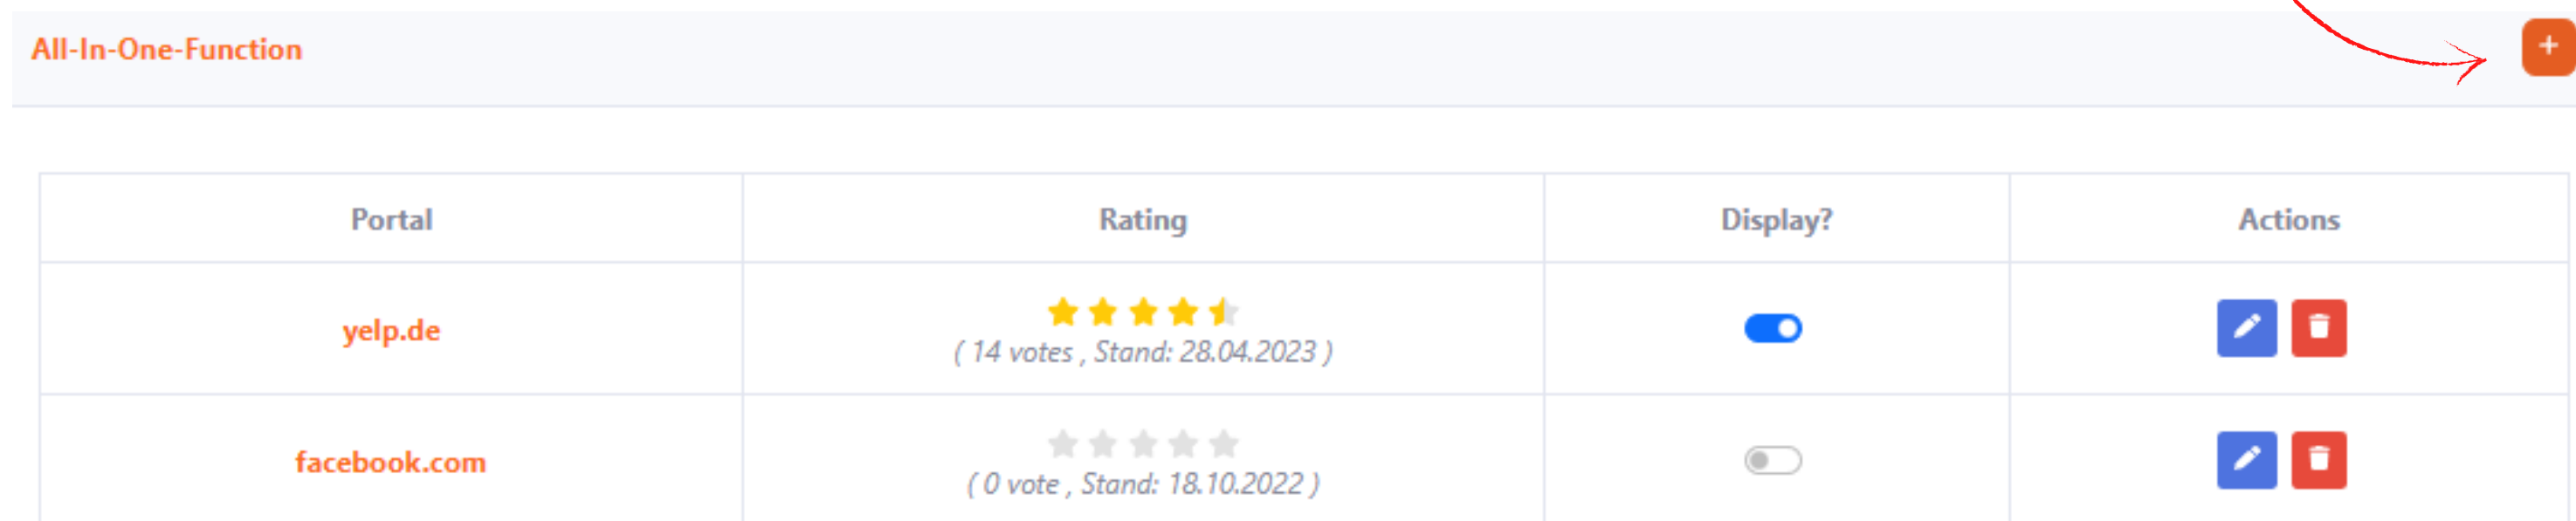

Step 6: All-in-One Function

With the All-In-One function, you can enter, edit, or remove up to 3 external review portals (up to 7 portals in the Professional package).

Registering a portal can be done in a few simple steps:

1. In the left navigation bar, you will find the "All-In-One Function" tab.
2. Clicking on the "All-In-One Function" tab will allow you to view and edit your portals.
3. Next to the "All-In-One Function" title, you can click on "Add Portal" to add your desired portal.

Portal	Rating	Display?	Actions
yelp.de	★★★★★ (14 votes , Stand: 28.04.2023)	<input checked="" type="checkbox"/>	 
facebook.com	☆☆☆☆☆ (0 vote , Stand: 18.10.2022)	<input type="checkbox"/>	 

Step 6: All-in-One Function

4. Visit the URL of the portal where the number of ratings and the average rating are stored.
5. Paste the web address under "URL".
6. Click on "Add".

Add external ratings ×

7. **Activation:** We will take care of this step for you. After reviewing your information, we will activate the portal and display it on your profile page. To avoid unnecessary waiting time, please let us know by email or phone as soon as you have added a new portal, so that our team can process it for you promptly.

Step 6: All-in-One Function

If you want to change the web address of the portal, you can do this under "edit". In addition, there is another function: you can control which portals you want to display and which ones you do not.

All-In-One-Function +			
Portal	Rating	Display?	Actions
yelp.de	★★★★★ (14 votes , Stand: 28.04.2023)	<input checked="" type="checkbox"/>	 
facebook.com	☆☆☆☆☆ (0 vote , Stand: 18.10.2022)	<input type="checkbox"/>	 

IMPORTANT: Please note that you must have collected at least one customer review through [AUSGEZEICHNET.org](https://www.ausgezeichnet.org) for the external portals to be displayed in the rating seal.

Step 7: Place Review Collector

Using the Review Collector, you can collect reviews even more easily. Simply integrate the HTML code provided in your account on your Thank-You page. From now on, after a purchase or order, a pop-up window will appear asking your customer if they want to leave a review.

This is a screenshot of a web browser pop-up window. The title bar at the top left shows the AUSGEICHNET.org logo and a close button. The main content area has a light blue background and contains the following text: 'PLEASE RATE US!', 'Were you satisfied? Then please rate us on the independent review platform AUSGEZEICHNET.ORG', and 'Do you want to rate us after receiving the goods?'. Below the text are two buttons: a grey button labeled 'NO, THANKS.' and a green button labeled 'YES, I LIKE.'. At the bottom of the window, there is a dark grey footer with small white text: 'Our apply to evaluation [valuation guidelines](#) Information about data processing can be found [here](#)'.

If your customer agrees, they can enter their email address and receive a review request after a period of time specified by you.

Step 7: place review collector

Under "**Configuration**", you can set the number of days between your customer entering their email address and the automatic sending of the review request.

The ideal time for this is typically about three days after receipt of the product or service. Therefore, when setting the timing of the review request, please also consider the estimated delivery time.

A text input field contains the number '7'. At the bottom of the dialog, there are two buttons: 'Save' (blue) and 'Cancel' (grey). A red arrow points from the 'Configuration' title bar to the input field.

Step 8: QR-Code

With the help of the QR code, you can now collect reviews even more easily and at the same time create more attention for your company and your service.

Step 9: Rating Link

On the left side of the "Dashboard", you will find the "Rating link" option.

You can insert these links into your automated emails, such as your newsletter or email signature. This allows your customers to leave a review at any time.

Our Message

Dear customer,

If there is no plugin available for your shop software or CMS, we have provided you with an example description for manual integration.
With this encryption method of the rating link and the additional information "**pos**" = **point of sale** (rating due direct afer purchase or "**af**" = **after fulfillment** (rating due eg 3 days after purchase), we increase the value of the reviews to Google and ensure the highest level of protection by encrypting the links (spam ratings).
